

# Friends and Family Survey Feedback - May 2019

The doctor considered a range of different causes for my symptoms. He didn't just have one idea, but many. Also he was very kind, and inspired confidence.

Difficulty getting through in the morning to book an appt..

The staff are unfailingly kind and helpful, the doctors attentive, and the surgery super clean and tidy.

At all levels from reception , nurses , doctors and other professions , I experience friendliness , patience , high competence and thorough explanations

The receptionist was kind and helpful and the doctor was caring, listened to my problem without rushing me and explained in detail his diagnosis.

Very long waiting time, appointment started 40 min later than scheduled.

Great team and brilliant GPs.

No waiting time and friendly and professional staff.
